- 2019 winner of "Start Green Award"
COMPANIES NEED INSIGHTS INTO THEIR SUPPLY CHAIN TO MANAGE SUSTAINABILITY RISKS AND ACHIEVE IMPROVEMENTS

90% of sustainability risks are coming from the deeper supply chain

37% of CEOs say supply chain risks are one of the biggest threats

6% of procurement leaders have full visibility in their supply chain
WE ENABLE BUSINESSES TO DISCOVER THE DEEPER SUPPLY CHAIN, IDENTIFY SUSTAINABILITY RISKS AND MONITOR PROGRESS

High Carbon Footprint
Deforestation
High Pesticide Use
Child labor
Artisanal Mining
OUR SOLUTION HELPS BUSINESSES TO

- Identify sub-suppliers
- Trace high-risk materials to the source
- Visualize and document the supply chain
- Collect sustainability data from indirect suppliers
- Identify social, environmental and disruption risks
- Collaborate and monitor success of actions
ADDED VALUE

Protect brand reputation
- Assure sustainable sourcing
- Ensure regulatory compliance
- Communicate fact-based claims

Increase efficiency
- Consolidate data across multiple systems
- Avoid time managing tier 2+ suppliers
- Reduce supplier effort by sharing data with many customers

Save money
- Reduce sourcing&disruption risks
- Reduce non-compliance of suppliers
- Optimize audit spends
- Manage quality issues faster
